TimeStyle

PROJECT REPORT (2023-24)

Dr. A.P.J Abdul Kalam Technical University Lucknow

Submitted for the Partial Fulfillment of the

Requirement for the Degree of MASTER OF COMPUTER

APPLICATION

Submitted By :-

ADITYA SINGH

(MCA 3rd)

2200590140007

Under the Guidance of :-

Mr. Rajat Verma

Assistant Professor(MCA)

Submission Date:

Lal Bahadur Shastri Institute of Management & Development Studies
Kursi Road, Lucknow 226026

LAL BAHADUR SHASTRI INSTITUTE OF MANAGEMENT & DEVELOPMENT STUDIES LUCKNOW UTTAR PRADESH

MINI PROJECT RECORD
MASTER OF COMPUTER APPLICATION

Course Title: Mini Project
Course Code: KCA-353 Semester 3
Roll No: 2200590140007
Name Of Student: Aditya Singh
Date Of Submission:
Signature Of Student:
Grade/Marks Obtained:
Faculty Name & Signature: Mr. Rajat Verma Sir

ACKNOWLEDGEMENT

I would like to express my Special thanks of gratitude to my teacher **Mr. Rajat Verma**, who gave me the golden opportunity to do this wonderful project of **Web Development** on **Ecommerce Website 'TimeStyle'**, who also helped me in completing my project. I came to know about so many new things I am really thankful to them. Secondly I would also like to thank my parents and friends who helped me a lot in finalizing this project within the limited time frame.

Aditya Singh

MCA 3rd semester

Conclusion

INTRODUCTION

TimeStyle is a cutting-edge web application developed as part of our college project. It leverages the power of AI to generate unique watch designs, providing users with a curated selection to choose from. Ensures secure access to the platform with a robust login and signup system. A showcase of diverse watch designs, each uniquely generated by AI. An intuitive system for users to select, add to cart, and place orders for their chosen designs.

PURPOSE

Transforming the dream of a personalized watch into a tangible reality. Offering a wide range of watch accessories for users to choose from, ensuring each watch is truly one-of-a-kind. Providing an intuitive and engaging interface for users to customize their watch design. TimeStyle is designed with a focus on user experience. The journey from browsing designs to placing an order is seamless and user-friendly.

SCOPE

TimeStyle goes beyond traditional watch buying by delivering a personalized experience. Each watch becomes a personal statement, reflecting the unique taste and style of the user. With an enhanced user management system, TimeStyle ensures a seamless and user-friendly experience, setting a remarkable impression in the field of customizable watches. With the integration of AI for personalized suggestions and social features for design sharing and competitions, TimeStyle becomes a dynamic and interactive platform for watch enthusiasts.

Tools & Technology

Technology:

- HTML
- CSS
- JavaScript
- Bootstrap
- Python
- Django
- SQLite

Operating System:

- Windows 11

Tools:

- VS Code
- Postman
- DBbrowser

Conclusion

- A description of the background and context of the project and its relation to work already done in the area.
- Made statement of the aims and objectives of the project.
- The description of Purpose, Scope, and applicability.
- We define the problem on which we are working in the project.
- We describe the requirement Specifications of the system and the actions that can be done on these things.
- We understand the problem domain and produce a model of the system, which describes operations that can be performed on the system.
- We included features and operations in detail, including screen layouts.
- We designed user interface and security issues related to system .Finally the system is implemented and tested according to test cases.

THANKYOU
